Ms. LaTrina Leary
Township Supervisor
Peoria Township
427 W Main St
Peoria, IL 61606

Dear Ms. Leary,

Heartland Health Services is seeking continued support for the medically underserved of Peoria, Illinois. The funding we receive allows us to provide services to patients with no health insurance coverage, including the Township Relief individuals who come to our clinics for primary health care.

Since becoming a Federally Qualified Health Clinic in 2004, we have increased our number of patients to 20,607. We continue to offer primary care, referral and pharmaceutical services at easily accessible locations for our patient population.

As you know, Heartland is a 501(C)(3) charitable organization, and a portion of our revenue comes from contributions made by individuals, institutions, churches, and grants from public and private sources. We appreciate your past support of Heartland, which has been critical to our ability to provide much needed services to our patients.

Thank you for supporting our Mission: *Provide affordable, high-quality health services and remove inequities to improve the lives of all.*

Sincerely,

Sharon Adams
CEO
