3 The actual fee will be negotiated based upon concurrence on the final score.

Notes:

Price is so low I am worried that they will take shortcuts.

Even though they say they can import their data into Davey's Treekeeper or export Davey's data into their own system I am concerned that there would be problems. (Our own IS Department has never changed systems without problems) Both companies would blame each other and we would be in the middle.

They are based in California and most of their references are not in the midwest. Davey is a midwestern based company.
