Subject: Re: Street Name Change

Leah,

Thank you for getting back to me. We are proposing changing our new location of business from 'Precast Way' to 'JIMAX Place'. In further reviewing what the differences between streets, boulevards, avenues, and other roads I feel that the definition for place may be a better choice if it is possible. The legal definition is " **Place (Pl.):** A road or street that has no throughway—or leads to a dead end. " We see this to be most fitting as the road dead ends into our new location. Please note that it appears that one of the adjacent property owners (terry burnside) is also a competitor of JIMAX LLC and may cause a fuss just to be difficult. Our entire team is excited for the opportunities that this new location will provide for us. We have a tentative closing date set for march 15 however we will most likely be closing sooner. Our goal is to be operation from this location for the start of the Code Enforcement season.

Jim
