BID BOND

1. Bidder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to pay to Owner upon default of Bidder the penal sum set forth on the face of this Bond. Payment of the penal sum is the extent of Bidder's and Surety's liability. Recovery of such penal sum under the terms of this Bond shall be Owner's sole and exclusive remedy upon default of Bidder.
2. Default of Bidder shall occur upon the failure of Bidder to deliver within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents.
3. This obligation shall be null and void if:
 - 3.1 Owner accepts Bidder's Bid and Bidder delivers within the time required by the Bidding Documents (or any extension thereof agreed to in writing by Owner) the executed Agreement required by the Bidding Documents and any performance and payment bonds required by the Bidding Documents, or
 - 3.2 All Bids are rejected by Owner, or
 - 3.3 Owner fails to issue a Notice of Award to Bidder within the time specified in the Bidding Documents (or any extension thereof agreed to in writing by Bidder and, if applicable, consented to by Surety when required by Paragraph 5 hereof).
4. Payment under this Bond will be due and payable upon default of Bidder and within 30 calendar days after receipt by Bidder and Surety of written notice of default from Owner, which notice will be given with reasonable promptness, identifying this Bond and the Project and including a statement of the amount due.
5. Surety waives notice of any and all defenses based on or arising out of any time extension to issue Notice of Award agreed to in writing by Owner and Bidder, provided that the total time for issuing Notice of Award including extensions shall not in the aggregate exceed 120 days from the Bid due date without Surety's written consent.
6. No suit or action shall be commenced under this Bond prior to 30 calendar days after the notice of default required in Paragraph 4 above is received by Bidder and Surety and in no case later than one year after the Bid due date.
7. Any suit or action under this Bond shall be commenced only in a court of competent jurisdiction located in the state in which the Project is located.
8. Notices required hereunder shall be in writing and sent to Bidder and Surety at their respective addresses shown on the face of this Bond. Such notices may be sent by personal delivery, commercial courier, or by United States Registered or Certified Mail, return receipt requested, postage pre-paid, and shall be deemed to be effective upon receipt by the party concerned.
9. Surety shall cause to be attached to this Bond a current and effective Power of Attorney evidencing the authority of the officer, agent, or representative who executed this Bond on behalf of Surety to execute, seal, and deliver such Bond and bind the Surety thereby.
10. This Bond is intended to conform to all applicable statutory requirements. Any applicable requirement of any applicable statute that has been omitted from this Bond shall be deemed to be included herein as if set forth at length. If any provision of this Bond conflicts with any applicable statute, then the provision of said statute shall govern and the remainder of this Bond that is not in conflict therewith shall continue in full force and effect.

REQUIREMENTS FOR GOOD-FAITH EFFORTS (Projects exceeding \$50,000)

I. Description of Program

- A. It is the policy of the City of Peoria to encourage participation of M/WBE's on all city-funded construction projects. The participation goals are cited in Section VI on the Subcontractor Utilization Statement.

V. **Change In Use of Subcontractors or Self-Performance Status**

- A. Before the General Contractor can deviate from utilizing any of the subcontractors listed on the Subcontractor Utilization Statement or its declared intent to self-perform, it must submit a completed **Notification of Change in Participation** form to the City of Peoria. Upon notification construction on the project may be delayed or halted until a review is conducted by the Equal Opportunity Office.
- B. Regarding a self-performance change, if a subcontracting opportunity has been made available, the General Contractor must identify all good faith efforts made to meet the M/WBE participation goals, unless the change was due to an emergency.

VI. **Procedures for Counting M/WBE Participation toward Goals (based upon Department of Transportation regulations)**

- A. When an M/WBE participates in a contract, count only the value of the work actually performed by the M/WBE toward M/WBE participation goals.
 1. Count the entire amount of that portion of a construction contract (or other contract not covered by paragraph (i)(2) of this section) that is performed by the

- M/WBE's own forces. Include the cost of supplies and materials obtained by the M/WBE for the work of the contract including supplies purchased or equipment leased by the M/WBE (except supplies and equipment the M/WBE subcontractor purchases or leases from the prime contractor or its affiliate).
2. Count the entire amount of fees or commissions performed by an M/WBE firm towards M/WBE goals if that firm provides the Apparent Low Bidder a bona fide professional, technical, consultant, or managerial service or provides bonds or insurance specifically required in a City of Peoria contract.
 3. If an M/WBE subcontracts a portion of its work to an M/WBE, 100% of the value of the subcontracted work may be counted toward the M/WBE goal, but any portion of the work the M/WBE subcontracts to a non-M/WBE does not count toward the M/WBE goal.
- B. When an M/WBE participates in a joint venture on a City contract, only count the dollar value of the portion of the work that the M/WBE performs with its own forces toward M/WBE goals.
- C. Count expenditures to an M/WBE contractor toward M/WBE goals if, and only if, the M/WBE is performing a commercially useful function on that contract.
1. An M/WBE performs a commercially useful function when it is responsible for performing, managing, and supervising its contracted work; moreover, with respect to materials and supplies used on the contract, it must also be responsible for negotiating its price, and purchasing and managing those supplies.
 2. An M/WBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of M/WBE participation. It should be noted that an effort contrived to give the appearance of M/WBE participation is not considered a good faith effort and is considered an ethical violation that is subject to sanctions outlined in section V.
 3. If an M/WBE does not perform or exercise responsibility for at least 30% of the total cost of its contract with its own work force, you must presume that it is not performing a commercially useful function and the dollar amount of that work will not count toward the M/WBE goals.
 4. When an M/WBE is presumed the City of Peoria not to be performing a commercially useful function as provided in paragraph (iii)(3) of this section, the M/WBE may present evidence to rebut this presumption. Your rebuttal is subject to review by the City of Peoria.
 5. Use the following factors in determining if an M/WBE trucking company is performing a commercially useful function:
 - i. The M/WBE trucking company must manage and supervise the trucking work it is being paid to perform. A contrived arrangement for the purpose of giving the appearance of meeting M/WBE goals is not considered a good faith effort.
 - ii. The M/WBE trucking company must own and operate at least one fully licensed, insured, and operational truck used on the contract.
 - iii. The M/WBE trucking company receives credit for the total dollar value of the transportation services it provides on the contract using trucks it owns,

- insures, and operates.
- iv. The M/WBE trucking company may lease trucks from another M/WBE trucking firm, including an owner-operator who is certified as an M/WBE. The M/WBE who leases trucks from another M/WBE receives total credit for the dollar value of the transportation services the M/WBE trucking lessee provides on the contract.
 - v. The M/WBE trucking company may also lease trucks from a non-M/WBE trucking firm, including an owner-operator. The M/WBE who leases trucks from a non-M/WBE is only entitled to credit for the fee or commission it receives as a result of the lease arrangement. The M/WBE does not receive credit for the total dollar value of the transportation services provided by the lessee since these services are not provided by an M/WBE.
 - vi. A lease agreement with an M/WBE trucking firm must indicate that the M/WBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the M/WBE, so long as the lease gives the M/WBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the M/WBE.
6. Count expenditures with M/WBEs for materials and supplies toward M/WBE goals in the following manner:
- i. If the materials or supplies are obtained from an M/WBE manufacturer, count 100% of the cost of the materials or supplies toward M/WBE goals.
Note: For purposes of this paragraph (v)(1), a manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies, articles, or equipment required under the contract and of the general character described by the specifications.
 - ii. If the materials or supplies are purchased from an M/WBE regular dealer, count 60% of the cost of the materials or supplies toward M/WBE goals.
Note: For purposes of this section, a regular dealer is a firm that owns, operates or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the contract are brought, kept in stock, and regularly sold or leased to the public in the usual course of business.
 - (1) *To be a regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question.*
 - (2) *A person may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone, or asphalt without owning, operating, or maintaining a place of business as provided in this paragraph (v)(2), if the person both owns and operates distribution equipment for the products. Any supplementing of regular dealers' own distribution equipment shall be by a long-term lease agreement and not on an ad hoc or contract-by-contract basis.*
 - (3) *Packagers, brokers, manufacturers' representatives, or other persons who arrange or expedite transactions are not regular dealers within the*

meaning of the paragraph (v)(2).

- iii. If materials or supplies are purchased from an M/WBE which is neither a manufacturer nor a regular dealer, count only 5% of the contract amount toward the M/WBE goals.

VII. Record Keeping and Reporting

- A. The General Contractor and subcontractors agree to maintain records demonstrative of its good faith efforts to comply with the participation goals attached to the project. This would include, but not limited to, names of M/WBEs and non-minority firms awarded subcontracts, including dollar amount of the contract, payments to subcontractors, and weekly certified payroll reports. These records shall be made available to the City of Peoria.
- B. All information will be provided through ePrismSoft, an electronic web based compliance tracking software. Access to ePrismSoft has been furnished by the City of Peoria. To activate access, the General Contractor and subcontractors must contact Human Capital Development at webnfo@eprismsoft.com or 309/692-6400.

VIII. Sanctions

- A. The Equal Opportunity Office may recommend the rejection of the apparent low bid where the information submitted by the Apparent Low Bidder fails to objectively demonstrate compliance with the M/WBE Good-Faith Efforts requirements. The Apparent Low Bidder will be notified of this decision and the reasons in writing. The Apparent Low Bidder may request a hearing within five (5) business days of this notice. The request must be submitted to the Equal Opportunity Office. The hearing will be held no later than seven (7) business days after receipt of request. The City Manager or designee will conduct all hearings.
- B. Upon a finding that any party has not complied with the provisions of this clause, any one or a combination of the following actions may be taken:
 - 1. Declare the Apparent Low Bidder non-responsive and therefore ineligible for contract award.
 - 2. Declare the Apparent Low Bidder ineligible for further contracts for a calendar year.
 - 3. File a formal complaint against Apparent Low Bidder, and/or subcontractor with the Fair Employment and Housing Commission.

REFERENCE TO IDOT STANDARD SPECIFICATIONS

The Illinois Department of Transportation - Standard Specifications for Road and Bridge Construction, Latest Edition and the Supplementary Specifications and Recurring Special Provisions, Latest Edition, henceforth be referred to as IDOT Standard Specifications, shall govern the construction of the work under this contract and shall be considered a part of the drawings, specifications and contract documents for this improvement. The General Conditions, Special Provisions, and Plans shall govern the work in the event of a conflict with the Standard Specifications. The project shall comply with all other requirements of the IDOT Standard Specifications in reference to materials and performance.

CITY ENGINEER, RESIDENT ENGINEER, AND DESIGN ENGINEER

As defined in Article 101.16 of the Standard Specifications, the City Stormwater Engineer of the City of Peoria is the Engineer referenced in the contract documents. The Resident Engineer/Resident Technician shall be identified by the Engineer at the initial project meeting and designated as the Engineer's Representative. The City of Peoria may also retain a consulting engineer to provide services on behalf of the Engineer during construction of the improvements. These persons and their responsibilities will be identified at the initial project meeting.

The City of Peoria hired a consulting engineer to evaluate the existing conditions and design the proposed improvements. The plan drawings and specifications were prepared under the direction of the Professional Engineer whose seal is on the plan coversheet. That person is the Design Engineer. Questions about the designer's intent shall be directed to the Engineer's Representative. The Engineer's Representative and/or City Engineer will consult the Design Engineer as necessary regarding the designer's intent and potential modifications to these plans that alter the designer's intent.

PROPERTY OWNER CONSIDERATIONS

The Engineer, and Engineer's Representative, will be responsible for coordination with the property owner. At the direction of the Engineer, the Contractor will be required to participate in periodic meetings with the property owner as the work proceeds. The Contractor and property owner shall not discuss material changes to the Project without the consent and approval of the Engineer.

Whenever excavation is made within a temporary construction or permanent easement, on private property for driveways, drainage improvements, sidewalks, and landscape areas, the disturbed area be restored as nearly as possible to its original position and the whole area involved in the construction operation shall be left in a neat and presentable condition.

The Contractor shall use reasonable care to avoid disturbing portions of private property not necessary to the construction operations. If, in the judgment of the Engineer, areas are disturbed unnecessarily, the Contractor shall restore these areas at his own expense.

CONTRACT TIME

The work shall be completed and ready for final payment by August 12, 2022.

LIQUIDATED DAMAGES

It is understood and agreed that TIME is of the essence on this Contract, and that a failure on the part of the Contractor to complete the work under this Contract within the time specified will result in loss and damage to the City; and that on account of the peculiar nature of such loss or damage, it is difficult, if not impossible, to accurately ascertain and definitely determine the amount thereof. It is, therefore, covenanted and agreed that in case the Contractor shall fail or neglect to complete the work herein specified on or before the date herein fixed for completion, together with any extensions of time which may be granted, the said Contractor shall and will pay to the City for each and every calendar day the Contractor shall be in default in the time of completion of this contract the sum set below:

ORIGINAL CONTRACT AMOUNT (\$)		
From More Than	To and Including	Amount of Liquidated Damages per Calendar Day
\$0	\$100,000	\$475
\$100,00	\$500,000	\$750
\$500,000	\$1,000,000	\$1,025
\$1,000,000	\$3,000,000	\$1,275
\$3,000,000	\$6,000,000	\$1,425
\$6,000,000	\$12,000,000	\$2,300
\$12,000,000	And over	\$6,775

In fixing the damages as set forth herein, the desire is to establish a certain mode of calculation for the work since the City's actual loss, in the event of delay, cannot be predetermined, it would be difficult to ascertain, and a matter of argument and unprofitable litigation. This said mode is an equitable rule for measurement of the City's actual loss and fairly considers the loss of use of the facilities if the project is delayed in completion.

The sum specified is hereby agreed upon, fixed and determined by the parties hereto as the liquidated damages which the City will suffer by reason of such defaults, and not by way of a penalty.

RESPONSIBILITY FOR DAMAGE CLAIMS

The Contractor shall indemnify and save harmless the CITY OF PEORIA, its officers and employees; the Engineer's Representative, its officers and employees, against all loss, damage or expense that it or they may sustain as a result of any suits, actions, or claims of any character brought on account of injury to or death of any person or persons, including all persons performing any work under this contract, which may arise in any way (except for a negligent act of the City of Peoria, its officers or employees or the Engineer's Representative, its officers or employees) in connection with the work to be performed under this contract, including but not limited to, suits, actions or claims arising under "An Act providing for the protection and safety of persons in and about the construction, repairing, alteration or removal of building, bridges, viaducts, and other structures, and to provide for the enforcement thereof," approved June 3, 1907, (740 ILCS 150/1), as amended: the Contractor shall also indemnify and save harmless the CITY OF PEORIA, its officers and employees; and the Engineer's Representative, its officers and employees, from all suits, actions, or claims of any character brought because of any injuries or damages received or sustained by any person, persons, or property, on account of, or in consequence of, any neglect by Contractor or a Subcontractor in safeguarding the work; or through use of unacceptable materials in constructing the work; or because of any act or omission, neglect, or misconduct of said Contractor; or because of any claims or amounts recovered for any infringements of patent, trademark, or copyright, or from any claims or amounts arising or recovered under the "Workers Compensation Act," or any other law, ordinance, order, or decree, and so much of the money due the said Contractor under and by virtue of this contract as shall be considered necessary by the Department for such purposes, may be retained for the use of the ENGINEERING DIVISION; or, in case no money is due, the surety shall be held until such suits, actions, or claims have been settled and suitable evidence to that effect furnished to the Department.

The Contractor and any Subcontractor shall file with a public body: a copy of the substance abuse prevention program along with a cover letter certifying that their program meets the requirements of the Act, or a letter certifying that the Contractor or a Subcontractor has a collective bargaining agreement in effect dealing with the subject matter of this Act.

EXAMINATION OF EXISTING CONDITIONS AT PROJECT SITE

It is the responsibility of each bidder to satisfy himself as to the conditions which will be encountered during the performance of the work. Examination of the job site is highly recommended before submittal of bids. Failure to do so will not be considered as grounds for additional compensation due to the unforeseen adverse conditions which may be encountered during the performance of the work.

PAYMENT FOR ITEMS NOT LISTED

Should there be construction shown on the plans or described in the specifications for which no method of payment is outlined in the Plans or Special Provisions, that work shall be considered incidental to the project and the cost of the work included in related unit price items.

PAYMENT FOR CHANGE ORDER WORK

When changes from the plans and specifications are made and the issuance of change orders are involved, the Contractor shall submit a written proposal to the Engineer listing material cost, labor and equipment cost, and overhead and profit. In addition, the written proposal shall include any additional time necessary to complete the change order work. Where subcontractors are involved in change order work, the overhead and profits for the subcontractor shall not exceed 15% and the overhead and profit added to the subcontractor's proposal by the Contractor shall not exceed 5%.

ALTERNATE MATERIALS

In any case, where a specific material is mentioned in the specifications or on the plans, it is understood and construed as meaning to indicate only the type of material desired and is not intended in any way to bar the use of any material of equal quality.

In order that all bids may be evaluated on the same basis, however, contractors shall use material mentioned in the specifications or on the plans in arriving at their basic bid on each item, but may submit prices on alternate materials if they so desire. Evaluation of bids will be on the basis of the materials specified. The approval of any material other than that specified shall be obtained in writing from the engineers before the contract is awarded; otherwise, it shall be assumed that the contractor will furnish the material specified.

Should the Contractor desire to use material other than that specified, he shall indicate in the place provided in the proposal the alternate material he proposes to use and the amount to be added to or deducted from the base bid if that item of material is used. All information required on the proposal shall be furnished. Full particulars on alternate material shall be submitted with the bids.

The plans are intended to show structures needed for the material named in the specifications. Where the Contractor desires to use material other than that named, he shall be responsible for the preparation of drawings needed for proper installation of that material. Changes from the structure shown to facilitate use of that material shall not be a basis for additional payment.

TEMPORARY UTILITIES

Should the Contractor wish to use utilities (including electric and water) on a temporary basis to carry out the work specified herein, the Contractor shall make all arrangements necessary and shall pay all costs associated with connection to the utility. The Contractor shall also arrange to meter and to pay for all water usage and electric service.

RECORD DRAWINGS

The Contractor shall, during the progress of the job, record any and all changes or deviations from the original drawings, and, at the completion of the project, shall deliver to the Engineer a marked-up set of "record" drawings.

SHOP DRAWINGS AND MATERIAL CERTIFICATIONS

Prior to fabrication of equipment/materials, the Contractor shall submit shop drawings of the equipment, piping, precast structures, and other items to the Engineer for review. Shop drawings shall consist of complete descriptive literature on the equipment including all pertinent dimensions, material specifications, operational and maintenance data and performance curves and data. Prior to submitting shop drawings to the Engineer, the Contractor shall first review the shop drawings, make corrections or revisions which are appropriate and then stamp the shop drawings with the Contractor's name and signature as proof of review.

Material certifications and mixture designs shall be provided for materials incorporated into the project. Material certifications shall contain the origin, source, classification or gradation, standards by which the classification or gradation was derived, the approving agency and contact information, the date of the most recent approval, as well as all other information required by the Engineer to evaluate the material for compliance with the requirements of these Contract Documents.

The cost of preparing and providing shop drawings and material certifications shall be considered incidental to the cost of equipment or item involved.

UTILITY PROTECTION AND RELOCATION

Prior to the start of construction, the Contractor shall arrange to have all underground utilities including storm sewer, water, gas, electric, sanitary, telephone, cable TV and fiber optic cables located and suitably marked. Should a utility be in conflict with the proposed construction, the City shall be notified at once. If utilities will interfere with the construction alignment, the Engineer may alter the alignment of the proposed sidewalk or arrange to have the utility to be relocated. Should the alignment be altered in the field, the Contractor shall be paid for the quantities of work performed in accordance with these specifications and no additional payment shall be made. Should a utility not in direct conflict with the construction be encountered, the Contractor shall protect it at no additional expense to the City and without claim by the Contractor for delays due to service lines encountered.

SITE PROTECTION AND CLEAN UP

Any areas or items that the contractor disturbs shall be restored to a condition equal to or better than that prior to the start of construction.

The Contractor shall protect all underground, ground level and overhead utilities from damage during the progress of the work. The Contractor shall remove all debris, broken or damaged equipment and unused material or equipment upon completion of the work, and shall leave the premises in a neat and presentable condition equal to that prior to the start of the construction.

The cost of clean-up operations shall be spread evenly throughout the bid items on the proposal. Clean up shall consist of removing all debris from the job site, to include removal of all excess dirt, concrete, pipe pieces, lumber scraps, paper cups, etc., left by the Contractor's forces. Clean up shall be performed as the work progresses, and a final clean up shall be done after all operations, including jetting and resurfacing, are completed. Debris shall not be discarded in excavations.

SAFETY REQUIREMENTS AND PROTECTION OF PROPERTY

Contractor's Responsibility for Safety

The Contractor shall do all work necessary for safety and be solely and completely responsible for conditions on the jobsite, including safety of all persons and property during the contract period. This requirement shall apply continuously and not be limited to normal working hours.

Federal, State and Local Safety Requirements

Safety provisions shall conform to the Federal and State Departments of Labor Occupational Safety and Health Act (OSHA) and amendments thereto, and all other applicable Federal, State, County, and local laws, ordinances, codes, the requirements set forth herein, and any regulations that may be specified elsewhere in these Contract Documents. Where any of these are in conflict, the more stringent requirements shall be followed. The Contractor's failure to thoroughly familiarize himself with the aforementioned safety provisions shall not relieve him from compliance with the obligations or relieve him of the penalties set forth therein.

Safe Access to the Work

The Contractor shall at all times provide proper facilities for safe access to the work by the City, the Engineer and his authorized representatives and by all authorized government officials.

The Contractor shall maintain at the jobsite safety equipment applicable to the work as prescribed by the governing safety authorities and all articles necessary for giving first aid to the injured and shall establish the procedure for the immediate removal to a hospital or a doctor's care of persons who may be injured on the jobsite.

The performance of all work and all completed construction, particularly with respect to ladders, platforms, structure openings, scaffolding, shoring, lagging, and machinery guards, shall be in accordance with the requirements of applicable governing safety authorities.

Safety and Access to Property

The Contractor shall conduct the work so as to assure the least possible obstruction to traffic both within and outside of the work site. The convenience of the general public and residents adjacent to the project, and the protection of the persons and property are of prime importance and shall be provided for in an adequate and satisfactory manner.

All excavations shall be covered whenever Contractor's personnel are not present. As a minimum requirement, the cover over the excavation shall consist of 1/2-inch thick plywood that is blocked and braced to prevent entry by humans or animals. In addition, orange, plastic safety fence shall be placed around the perimeter of any excavation whenever Contractor's personnel are not present. All equipment, stored pipe, and other materials shall be carefully secured when not in use to prevent injury to persons and animals.

PROPERTY AND RIGHT-OF-WAY MARKERS

Any and all survey monuments which are disturbed by the Contractor's operations during construction shall be relocated and replaced with a similar monument by a Land Surveyor registered in the State of Illinois. Survey monuments shall include iron pins, iron pipes, concrete posts, stones, etc. which designate property corners, right-of-way lines, section corners or other land survey reference points. Survey monuments shall be relocated and tied to nearby landmarks by a Land Surveyor prior to excavation, if information is available in advance of construction that survey monuments will be disturbed. The Contractor shall bear the cost of an Illinois Registered Land Surveyor replacing survey monuments which are disturbed, and the cost shall be incidental to the contract.

STATE SALES TAX EXEMPTION

All materials incorporated in this project are exempt from the State of Illinois Sales tax.

MATERIAL STORAGE AND STAGING AREA

During the period of time between Notice to Proceed and Final Completion, the Contractor will be required to store material necessary for completion of the project. The manner and location of stored materials shall be approved by the Property Owner and Engineer. The Contractor will be responsible for the stored material and any damage, which may result in this time period.

All costs associated with this item shall be included in the total contract price bid.

DISPOSAL OF MATERIALS

Disposal of excess materials, including excavated material, shall be the Contractor's responsibility.

CERTIFIED PAYROLL REQUIREMENTS

Contractors and subcontractors on public works projects must submit certified payroll records on a weekly basis via EPrismSoft to the public body in charge of the construction project, along with a statement affirming

that such records are true and accurate, that the wages paid to each worker are not less than the required prevailing rate, and that the Contractor is aware that filing records he or she knows to be false is a Class B Misdemeanor. The Certified Payroll Records must include, for every worker employed on the public works project, the name, address, telephone number, social security number, job classification, hourly wages paid in each pay period, number of hours worked each day, and starting and ending time of work each day. Certified payrolls are to be submitted weekly on EPrismSoft, per the EEO guidelines outlined in Section VII of the Good Faith Efforts Requirements, herein. Copies of the certified payrolls as submitted to EPrismSoft should be submitted with each payment application for review by the City.

PREVAILING WAGE PROVISION

This contract is for the performance of "public works" as that term is defined by 820 ILCS 130/2. Contractor shall not pay less than the prevailing rates of wages to all laborers, workmen, and mechanics performing work under this contract, and shall comply with the requirements of the Illinois Wages of Employees on Public Works Act (820 ILCS 130/1-12).

This project will be subject to the Peoria County prevailing wage rate determination when the contract was let for bids, dated March 22, 2022. If the Department of Labor revises the prevailing rate of hourly wages to be paid by the public body, the revised rate as provided by the public body shall apply to this contract. It shall be the Contractor's responsibility to monitor the prevailing wages and adjust the payroll accordingly as soon as any rates are revised. The prevailing rates of wages are revised monthly and can be found on the Illinois Department of Labor's website. <http://www.illinois.gov/idol/Laws-Rules/CONMED/Pages/prevailing-wage-rates.aspx>

Explanations PEORIA COUNTY

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

Oil and chip resealing (O&C) means the application of road oils and liquid asphalt to coat an existing road surface, followed by application of aggregate chips or gravel to coated surface, and subsequent rolling of material to seal the surface.

Performance Bond

CONTRACTING DOCUMENTS

1. The Contractor and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors, and assigns to the Owner for the performance of the Construction Contract, which is incorporated herein by reference.
2. If the Contractor performs the Construction Contract, the Surety and the Contractor shall have no obligation under this Bond, except when applicable to participate in a conference as provided in Paragraph 3.
3. If there is no Owner Default under the Construction Contract, the Surety's obligation under this Bond shall arise after:
 - 3.1 The Owner first provides notice to the Contractor and the Surety that the Owner is considering declaring a Contractor Default. Such notice shall indicate whether the Owner is requesting a conference among the Owner, Contractor, and Surety to discuss the Contractor's performance. If the Owner does not request a conference, the Surety may, within five (5) business days after receipt of the Owner's notice, request such a conference. If the Surety timely requests a conference, the Owner shall attend. Unless the Owner agrees otherwise, any conference requested under this Paragraph 3.1 shall be held within ten (10) business days of the Surety's receipt of the Owner's notice. If the Owner, the Contractor, and the Surety agree, the Contractor shall be allowed a reasonable time to perform the Construction Contract, but such an agreement shall not waive the Owner's right, if any, subsequently to declare a Contractor Default;
 - 3.2 The Owner declares a Contractor Default, terminates the Construction Contract and notifies the Surety; and
 - 3.3 The Owner has agreed to pay the Balance of the Contract Price in accordance with the terms of the Construction Contract to the Surety or to a contractor selected to perform the Construction Contract.
4. Failure on the part of the Owner to comply with the notice requirement in Paragraph 3.1 shall not constitute a failure to comply with a condition precedent to the Surety's obligations, or release the Surety from its obligations, except to the extent the Surety demonstrates actual prejudice.
5. When the Owner has satisfied the conditions of Paragraph 3, the Surety shall promptly and at the Surety's expense take one of the following actions:
 - 5.1 Arrange for the Contractor, with the consent of the Owner, to perform and complete the Construction Contract;
 - 5.2 Undertake to perform and complete the Construction Contract itself, through its agents or independent contractors;
 - 5.3 Obtain bids or negotiated proposals from qualified contractors acceptable to the Owner for a contract for performance and completion of the Construction Contract, arrange for a contract to be prepared for execution by the Owner and a contractor selected with the Owner's concurrence, to be secured with performance and payment bonds executed by a qualified surety equivalent to the bonds issued on the Construction Contract, and pay to the Owner the amount of damages as described in Paragraph 7 in excess of the Balance of the Contract Price incurred by the Owner as a result of the Contractor Default; or
 - 5.4 Waive its right to perform and complete, arrange for completion, or obtain a new contractor, and with reasonable promptness under the circumstances:
 - 5.4.1 After investigation, determine the amount for which it may be liable to the Owner and, as soon as practicable after the amount is determined, make payment to the Owner; or
 - 5.4.2 Deny liability in whole or in part and notify the Owner, citing the reasons for denial.
6. If the Surety does not proceed as provided in Paragraph 5 with reasonable promptness, the Surety shall be deemed to be in default on this Bond seven days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond, and the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Paragraph 5.4, and the Owner refuses the payment or the Surety has denied liability, in whole or in part, without further notice the Owner shall be entitled to enforce any remedy available to the Owner.
7. If the Surety elects to act under Paragraph 5.1, 5.2, or 5.3, then the responsibilities of the Surety to the Owner shall not be greater than those of the Contractor under the Construction Contract, and the responsibilities of the Owner to the Surety shall not be greater than those of the Owner under the Construction Contract. Subject to the commitment by the Owner to pay the Balance of the Contract Price, the Surety is obligated, without duplication for:
 - 7.1 the responsibilities of the Contractor for correction of defective work and completion of the Construction Contract;

7.2 additional legal, design professional, and delay costs resulting from the Contractor's Default, and resulting from the actions or failure to act of the Surety under Paragraph 5; and

7.3 liquidated damages, or if no liquidated damages are specified in the Construction Contract, actual damages caused by delayed performance or non-performance of the Contractor.
