Phil,
At Hagerty Steel we buy from a large variety of mills and other service centers. This size channel is only produced by one mill in North America. This mill is located in Canada. At this time we are only able to offer Canadian material.
Thank you
Stephanie Joy

Thank you for the opportunity to quote your material requirements.
If you have any questions or wish to place an order, please contact your inside representative.
All material subject to prior sale
Prices subject to availability at time of order.
