State briefly why you wish to be considered for a city volunteer commission and what you would hope to accomplish if appointed I did not have access to lots of books growing up. Still managed to find them wherever I could. Want to make sure that people understand how fortunate they are in American with unfettered access.

Very interested in education, and believe that access to quality books is one of the basic human rights.

Would try to increase diversity of topics of books available to people, especially children in less affluent parts of the city.

Would your service on a city commission be a conflict of interest for you?; No
