ENVIRONMENT, LLC., for a Not to Exceed Amount of \$89,000.00, Extension
to Continue the Solid Waste Program Outreach and Engagement
throughout the City of Peoria. (All Council Districts)**

Council Member Moore inquired about the parameters of the agreement, why the City was paying for outreach and engagement services, and why those services were not included in the contract with PDC.

Public Works Director Scott Reeise said the contract the City entered into with PDC did not include outreach and engagement services. He said Foth Infrastructure & Environment, LLC was assisting the City with the outreach and the recent cart audit. He said the audit included tying fliers to the trash cart regarding the services that would be offered.

Council Member Moore moved to approve the first amendment to Master Professional Services Agreement #16-119 (L) with Foth Infrastructure & Environment, LLC, for a not-to-exceed amount of \$89,000.00, extension to continue the solid waste program outreach and engagement throughout the City of Peoria.

Council Member Jensen expressed a concern regarding the cost for outreach and engagement services and how it would impact the City's budget. She asked if this was additional money sought outside the scope of the budget.

Director Reeise said this request was not an additional budgetary cost, stating it was in the budget and spread over the life of the contract. He commented that the money requested could not have been used to prevent the layoffs that had occurred in the City.

Council Member Jensen seconded the motion.

In response to Council Member Cyr's inquiries, Director Reise explained how master service agreements were developed and when engineering firms were utilized for various projects. He commented that the costs were paid from the Solid Waste Fund or Sewer Fund. He said he was unaware of PDC having an in-house marketing department, noting the proposal presented to the City had the City conducting all the outreach services. He said the firms the City contracted with were selected based on qualifications. He stated that should a firm not perform, then there was less likely of a chance for the firm to be rehired by the City.

In response to Council Member Cyr, City Manager Urich stated that the increase in the garbage fee covered the cost of the extra expense for outreach services at \$2.00 per household.

Council Member Akeson moved for a substitute motion to defer this matter until the October 23, 2018, Regular City Council meeting; seconded by Council Member Cyr.

Council Member Akeson said she had some language questions on this item, noting that a two week deferral would be enough time to clarify the issues.

Council Member Montelongo said there had been discussions about improving dumpster screening in retail and industrial areas. He remarked about the use of wood as screening material; however, he requested there be language inserted in the Ordinance stating that wood screening would be allowed but should be replaced every 10 years. He commented on banning chain link fences as screening for dumpsters. He inquired about the process for items going to the Development Review Board or before the City Council and when it would be appropriate for the City Council to address screening issues.

Community Development Director Ross Black commented on the need for a process to review and approve screening, noting it was not necessary for most of these screening issues to come to the City Council for approval. He said these types of decisions were made at the Staff level; however and that appeals went to the Zoning Board of Appeals. He said if the City Council did not want to have chain link fences as an option, then that restriction could be included in the Ordinance.

Council Member Akeson and Council Member Montelongo suggested establishing criteria for screening based on the classification of the business on whether it was retail, a multi-family development or industrial. Council Member Akeson asked that proper notice be given to businesses upon passing the Ordinance and to provide a deadline to comply with the Ordinance.
