(21-228) Communication from the City Manager and Director of Community Development with a Request to ADOPT an ORDINANCE Amending CHAPTER 18 of the CODE of the City of Peoria, Relating to the Addition of a Licensing Requirement for TIRE BUSINESSES.

Council Member Jackson moved to adopt an Ordinance amending Chapter 18 of the Code of the City of Peoria, relating to the addition of a licensing requirement for tire businesses; seconded by Council Member Grayeb.

Interim Community Development Director Joe Dulin said the License was an attempt to abate tire dumping by authorizing the City to track and audit tire business records. He said Community Development and Public Works Staff cleaned up thousands of tires from Peoria streets each year, despite programs such as the [Tireless Project](#), a monthly collection of unwanted tires available for free to Peoria residents.

Discussions were held regarding the number of tire businesses in the City of Peoria, how they were identified, and the communication strategy regarding the new License requirements. After Interim Corporation Counsel Chrissie Kapustka described fiscal and legal consequences of dumping tires, the new administrative tasks assigned to City Staff related to the License was discussed. Council Member Kelly said he supported the item except the proposed \$50.00 annual fee.

Council Member Jackson thanked City Staff for working to implement the first step of a solution to the ongoing problem of tire dumping. She expressed concerns regarding additional duties to City Staff relating to the administration, tracking, and auditing the new license would require without providing additional resources without imposing a licensing fee.

Discussions were held regarding audit data, City Staff's distribution of duties, and the value tire dumping abatement would provide. Further discussions were held on the impact discarded tires had on the City and citizens, especially in the First District.

At Council Member Ruckriegel's request, Interim Director Dulin explained the Ordinance did not address tire storage businesses. He described requirements for tire storage businesses from the Property Maintenance Code, Building Code, State, and Federal regulations.

Discussions were held concerning the tracking of tire businesses located outside the City that conducted business in Peoria. It was noted this Ordinance would not be able to track businesses outside the City who simply dumped tires within the City. However, it was discussed that the City would reach out to the State's Attorney's Office to collaborate with the prosecution of illegal dumping of tires. Further discussions were held regarding the license fee.

Council Member Ruckriegel said he was in support of the item but asked for the fee to be lowered or eliminated. He said he was supportive of the item, noting it was a step in the right direction.

Council Member Riggerbach thanked Staff for the creative solution to address the root of the tire dumping problem. He discussed potential benefits of maintaining a registration of all Peoria businesses, and cited improved communication and tracking. He said he concurred with other Council Members regarding the elimination of the License fee from the Ordinance.

At the conclusion of his comments, Council Member Riggerbach moved for a substitute motion to adopt an Ordinance amending Chapter 18 of the Code of the City of Peoria, relating to the addition of a licensing requirement for tire businesses without a licensing fee; seconded by Council Member Kelly.

Further discussions were held regarding the License fee. Council Member Jensen said she supported the Ordinance as written, with the annual license fee.

Discussions were held about the current number of City Staff and potential revenue sources that could be used to hire additional Staff. Further discussions were held regarding the penalties for dumping tires.

Council Member Allen said he supported the Ordinance as written with the annual fee.

Council Member Kelly inquired if a motion could be made to amend the Ordinance to amend the Code regarding various levels of penalties for individuals dumping tires. Interim Corporation Counsel Kapustka advised such a request would require Staff to bring an amended Ordinance to a subsequent Council Meeting for consideration. Council Member Kelly requested an item to be placed on a subsequent Council Meeting Agenda with an amended Ordinance regarding increased penalties for individuals dumping tires.

Further discussions were held regarding the annual License fee and the burden on City Staff to remove discarded tires. Council Member Ruckriegel requested a Report Back regarding the costs incurred by the City to clean up tires annually. He said he believed City funds saved by

the reduction of Staff hours spent cleaning up tires would offset the administrative, tracking and auditing costs of the license. He concluded by saying he supported item without the license fee, as it was presented as a First Reading at the City Council Meeting held on July 27, 2021.

Council Member Oyler said he believed the revenue from tire dumping fines should be used to offset City costs instead of charging tire businesses a license fee.

ORDINANCE NO. 17,873 amending Chapter 18 of the Code of the City of Peoria, relating to the addition of a licensing requirement for tire businesses without a licensing fee was adopted by roll call vote.
