Preference on which commission you would like to serve:  
Construction Commission

Community Volunteer Experience  
Board member for the Joint Sheet Metal and Contractors Apprenticeship.

Have you previously served on a city commission:  
No

If yes, please list which commission and the date of service

#### Professional and Employment Background

Business owner in Peoria area doing HVAC work on commercial and residential properties.

#### Educational Background

Two years of college with trade based class work in Sheet-Metal and Energy Efficiency.

State briefly why you wish to be considered for a city volunteer commission and what you would hope to accomplish if appointed. With advent of energy codes in Illinois a lot of the traditional ways things have been done will and have changed. The importance of these changes cannot be understated, they will have long lasting and critical impact on future energy use along with safety concerns for the buildings in which they are implemented. I have personally and professionally tried to implement these changes in my home and the homes of our companies customers. Many of the problems with the new codes have been with interpretation and acceptance. I feel that having the knowledge of the intent of the energy codes along with a practical knowledge in meeting or exceeding them may come in handy as a part of an organization that is going to be shepherding us through the changes we will be dealing with.

Would your service on a city commission be a conflict of interest for you?; No
