State briefly why you wish to be considered for a city volunteer commission and what you would hope to accomplish if appointed I enjoy working with the building codes and do that as part of my current job. I have worked with many code officials in many states and like to discuss and work out issues with them prior to final plan approval. I would like to help the city adopt the new 2012 IBC with amendments and would like to help the city provide a tool to the contractors and design community to help with the plan approval process.

Would your service on a city commission be a conflict of interest for you?; No
