State briefly why you wish to be considered for a city volunteer commission and what you would hope to accomplish if appointed I've lived in Peoria all of my life and I want to help make the city I love better. I feel my past experience with Non-Profit organizations gives me the ability to assist on most commissions. Also, almost all of my marketing efforts have been used to help push local causes or help local startups. I have great connections in the city that I know I can use to leverage the advancement of our city by getting more citizens involved in city issues.

I would like to accomplish many things by being appointed. However, the one key thing I would like to accomplish is to help keep people my age range (26-32 years old) in the city of Peoria by helping find ways to keep them here and help our city continue to grow.

Would your service on a city commission be a conflict of interest for you?; No
