Community Development Director Ross Black explained the Ordinance was a result of requests from businesses to establish fulfillment centers in Peoria, which would require adding a Fulfillment Center Use to the City Code. He said there was a Warehouse Use in the Code, but fulfillment centers would require different considerations and he explained some examples. He described the permitted and special uses for both small-scale and large-scale fulfillment centers as outlined in the Ordinance. He concluded by saying the Ordinance would provide an opportunity for fulfillment centers to be established in Peoria, potentially in existing vacant buildings or spaces.

Council Member Kelly asked Director Black how fulfillment centers with multiple buildings would be classified in the Ordinance. Director Black described some examples of building layouts, how they would be classified, and what kind of impact they would have on the community.

At the request of Council Members Kelly and Allen, City Manager Patrick Urich provided an overview of the item to include why it had been deferred in the past. City Manager Urich said the project costs had increased beyond projections and both the City and property owner were required to cover the difference. He said it was a unique situation from inception because a channelized creek, part of the stormwater system, collapsed under privately-owned property originally owned by Peoria County. He said the delay in approving the item was due to negotiations between contractors, the property owner, and City Staff. Interim Corporation Counsel Chrissie Peterson confirmed that a two-thirds majority vote was required to adopt the Ordinance.
