Tracey,
It was nice speaking with you because we could put it to rest immediately I agree with you completely the alley which is a portion of my parking stay with the Glen Oak parcel and Armstrong go to OSF.   That alley has been gone I would guess for about the last 50 years or more and I would appreciate it if it could be staked so we know were it is so we can clean it up. I always wondered about the weeds along there and what seemed to be a strange lot line.

Subject: Alley and Armstrong Vacations

Marie,

It was a pleasure speaking to you this morning. As we discussed, the city has vacated the alley that is used as a portion of your parking lot and they have also vacated Armstrong. Instead of dividing the alley and Armstrong down the middle and each owner receiving half of each, we both have come to the agreement that you will retain ownership of the entire alley and OSF would retain ownership of Armstrong.

Can you please respond to this email and state that you are in agreement to this. I will them provide the city with this email confirming that both parties are in agreement.

Thank you,

Tracey Orsini
