ACTION REQUESTED:

Communication from the City Manager and Director of Public Works with a Request to ACCEPT the LOW BID of CORRECTIVE ASPHALT MATERIALS, LLC and Award a Construction CONTRACT, in the Amount of \$39,835.40, for the Base Bid Plus 10% Contingency for the CRF CONTRACT - 2018. (All Council Districts)

BACKGROUND: Public Works proposes to continue an annual CRF Restorative Seal contract to preserve roads in good condition in order to prolong their lifespan, and delay costly major reconstruction projects. CRF Restorative Seal is a petroleum oil and water emulsion plus maltene-based rejuvenator that provides pavement rejuvenation, as well as sealing the pavement.

Public Works prepared the contract specifications and advertised the project. On June 19, 2018, bids were received and opened, with one bidder submitting. There are not many contractors in this area that perform this type of specialized work. (Attached is a list of the streets to be treated in the 2018 Program.)

<u>Contractor</u>	<u>Base Bid Amount</u>
Corrective Asphalt Materials, LLC	\$36,214.00

Corrective Asphalt Materials LLC has performed this work for the City in the past with positive results.

FINANCIAL IMPACT: Funding is available through the 2018 Community Investment Plan for Pavement Preservation-Implementation, Project RP1801.

NEIGHBORHOOD CONCERNS: Well-maintained roads are a benefit to all neighborhoods.

IMPACT IF APPROVED: CRF pavement preservation will be constructed.

IMPACT IF DENIED: CRF pavement preservation will be not constructed, and pavements will continue to degrade and may require complete reconstruction at a future date.

ALTERNATIVES: N/A
